Information from the Hessian Ministry of Social Affairs and Integration on services and trades

**Shops:**

The retail trade remains open overall, subject to conditions relating to hygiene, access control systems and the avoidance of queues. It must be ensured that no more than one person is admitted per 10 square metres of sales area or part thereof over the first 800 square metres of sales area. If the sales area exceeds 800 square metres, a maximum of one person per 20 square metres or part thereof may be admitted; the relevant total sales area is decisive for shopping centres.

**Services:**

Personal care service providers such as beauty salons, nail studios, massage studios (for wellness or Thai massages), tattoo studios, barber shops, brow bars, waxing studios, eyelash studios and similar businesses remain closed.

Medically necessary treatments such as physiotherapy, occupational therapy, speech therapy, medical massages and manual lymphatic drainage remain possible. Hairdressing salons will remain open under the existing hygiene requirements.
